

## WHO WE ARE

fimshare is a charitable association under German law, created and run by employees of Finance in Motion, an alternative asset manager engaged in a number of topics such as microfinance and green energy. fimshare was set up because we felt the need to support charitable projects, besides our professional work in development finance, and contribute in other ways to development around the globe.

**Our objectives and principles:** We focus on supporting projects that have a direct impact, where we are able to track the ultimate beneficiary. We are focused on funding projects in the areas of education, poverty alleviation, emergency aid and infrastructure - all in emerging and developing countries. fimshare has a worldwide scope of activity, without preferential treatment of a political, racial or religious direction.

**How we are funded?** fimshare funds itself through membership fees, individual donations of employees, family and friends, and Finance in Motion. Any donation and contribution is fully channeled to the various projects we support. Administrative work is done pro-bono by the association's members.

**Where we support projects?** Since its launch in 2013, fimshare has funded projects in Burkina Faso, India, Bosnia and Herzegovina, Serbia, Lebanon, Palestine, and Bulgaria.

## HOW WE WORK

Due to their international exposure – both personally and professionally – our members often see remarkable projects around the world that are in need of funding. Drawing on these first-hand insights, fimshare members can propose projects for funding and submit project proposals, which are vetted by the association’s Board. Once funded, projects are closely monitored to ensure that funds are directed to the approved purpose. fimshare’s donations are not used for administrative expenses.

“We would like to extend our sincere thanks to fimshare. We have seen many happy faces when the lights were finally turned on”

— *Sabrina Dold*  
*Wir für Burkina e.V.*

In Douroula, a small village in Burkina Faso, only few buildings were connected to the electricity grid. With a EUR 4,500 donation of fimshare Douroula’s secondary school and the teacher’s housing could also be connected to the

electricity grid. The electrification does not only facilitate daily life of teachers and students but will also support the installation of computers, printers and other much needed electronic equipment.

## HOW YOU CAN CONTRIBUTE

fimshare pools donations and therefore your contribution (whether big or small) can have a meaningful impact. You can contribute by:

### BECOMING A MEMBER

Finance in Motion staff can join fimshare as members and donate through the annual membership fee. By doing so, you can actively contribute to our impact by proposing projects and taking part in shaping the association’s activities. Members can also share their creativity and time by supporting fimshare through fundraising.

### OFFERING REGULAR DONATIONS

By providing a monthly or yearly regular donation you allow us to continuously look for new remarkable projects – there are plenty all over the world. Consider placing a standing order – this way a regular contribution becomes easy for you and has a direct impact for people in need.

### DONATING FOR A SPECIFIC PROJECT

If you want to contribute for a specific project that fimshare is sponsoring, you can earmark your donation. Make sure this is clearly indicated in the transfer.
